Below are details for our New High Output Elite Series. The primary upgrade to the Elite series is the USA made Voice Coil consisting of an aluminum for increased heat dissipation. The USA coil is a Flat wound Wire with an industry leading 500 + degree epoxy allowing for higher heat tolerances. In addition to increased heat, the aluminum coil assembly is lighter weight providing an increased transience response. This results in an increase of cone responsiveness providing a tighter bass note suitable for various genres of music.

Thank you for considering SAVARD Speakers Systems. We are a specialty 12v/Audio supplier servicing many different environments across the USA and internationally. We service residential, commercial, and maritime applications.

BEWARE of Other Vendor Claims

Inflated Peak Power ratings are often exhibited to increase the appeal of the products. SAVARD uses conservative real time ratings. When selecting an amplifier SAVARD recommends reviewing reputable brands vs bargain brands. Please review RMS rating before purchase. Be cautious of inadequate service and support from some non-authorized vendors. SAVARD will offer direct support for items sold by this Ebay vendor.
